# VAUGHAN'S LAWN MIXTURES

**A** FLORIST selling Vaughan's Lawn Grass Mixtures is assured that there are no better grades sold at their respective prices.

Vaughan's Chicago Parks, Central Park and Columbian Mixtures are the highest grade possible to make. There is no brand so well or favorably known, and our extensive advertising make Vaughan's Lawn Grass Seed a sure and ready seller.

Grass seed is high again this year, due to the drouth the past season. We purchased early from the cream of the American crops, and our representative whom we had in Europe all of last fall bought the best European grasses, samples absolutely impossible to duplicate at this time. An equal quality mixture cannot be sold for less money.

**IMPOSSIBLE TO GUARANTEE CROPS.** We do not warrant in any way, expressed or implied, the contents, or the description, purity, productiveness, or any other matter of any seeds, bulbs or plants, sold by us, and we will not in any way be responsible for the crop.

If the customer does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions and by reason thereof, we make our sales at the moderate prices quoted in our catalogue. All orders to all states shipped, subject to customers assuming risk in regard to their state entomology requirements.

**ORDERS FOR BULBS, ONION SETS, and like perishable stock** which we book in advance of shipping date are accepted by us only subject to loss by fire, rot or other accident beyond our control, we not guaranteeing to supply same if so lost.

CHICAGO NEW YORK

## Bringing Them "Over Here"

Last season we told you about the troubles of the 'Over Seas' Bulb Importer. For the Fall of 1918 it is unnecessary to elaborate on these—they are too well known.

We were very fortunate last last year in bringing in all kinds

of bulbs, and in reasonably good season, and completed our orders. With our New York increased warehouse room, in the event of bulbs coming across, we should be able to do better; but with the present embargo troubles we shall be glad to do as well.

All prices on imported stock are subject to change and safe arrival, but have been based on closest figures we can make, consistent with enormous cabling and freight increases.

## American Grown Narcissus For Aug. and Sept. and later delivery

Last year when there was a doubt as to whether European Bulbs would arrive, we offered a few varieties of American grown Narcissi to the trade, both for outdoor planting and for forcing. Without one exception the growers report that these bulbs gave the utmost satisfaction.

This year we have increased the list of varieties, and as these bulbs will be available many weeks before we expect European stock, an advantage is offered of having early blooms to those who are accustomed to forcing Narcissi.

The growers who produce this stock are experienced, reliable men, who have for many years been trying out these bulbs, and are now producing bulbs which both for appearance and results are in our opinion equal to imported stock.

### French Roman Hyacinths

Owing to shortage of labor in cultivating, followed by drought, nearly all French bulbs are short crop and undersized. At this writing, August 10th, we fear that we cannot offer and deliver to new buyers our regular grades, though we hope to do so on most of our advance orders.

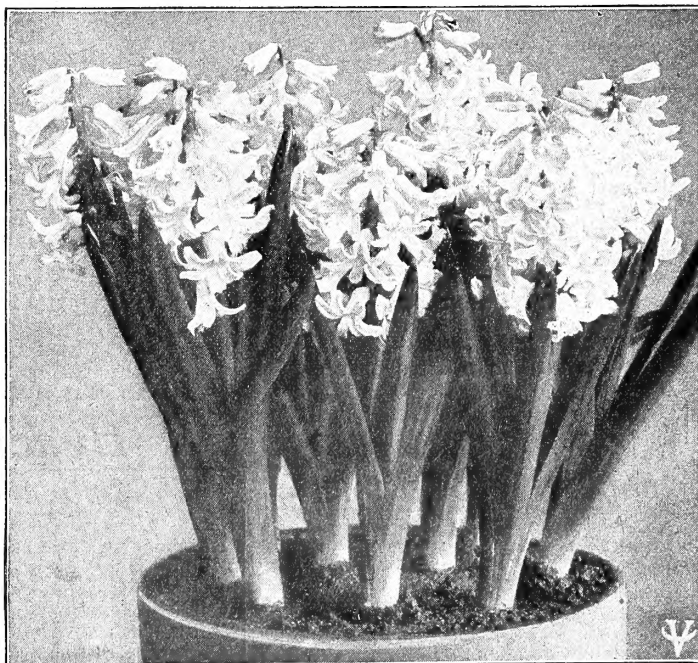

We ask that in ordering Paper Whites and Romans from this catalogue you give us the privilege of filling with the next lower grade if we cannot furnish the exact grade you order.

### Be sure to use Name "Dutch Romans" in ordering

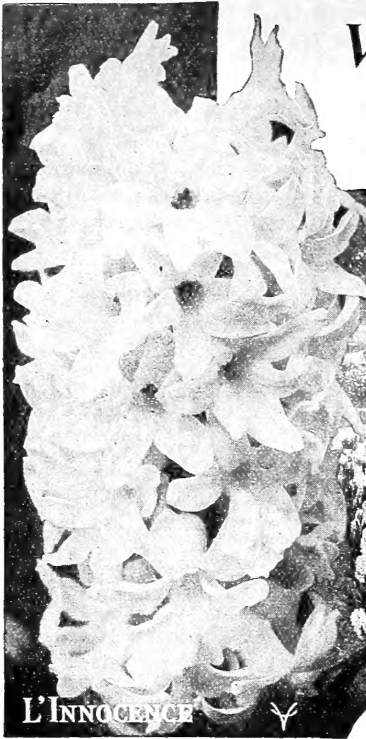

Our Dutch Romans are picked bulbs of even size, and will all give large flowers. We make a specialty of these in named varieties, and our prices on same are low for the grade we furnish. Especially desirable for growing in pans for Easter Sales.

DOUBLE EARLY TULIP MURILLO

## Early Double Tulips

Successful florists will know the value of these bulbs when forced for Winter Bloom. They "make up" splendidly when cut, rivaling the rose for color and shape and often attain the size of a good Peony. Grown in pots and pans they fetch big prices as decorative plants.

Our bulbs are selected by our best growers for our Florist trade and are sure to give satisfaction.

**Explanatory:** The number preceding the name of the variety denotes the height in inches, while the letters **a** and **b** indicate their earliness of bloom—the **a's** flower together and are the earliest; the **b's** flower together, but are somewhat late.

# Vaughan's Single Forcing Tulips

SINGLE TULIP, ROSE GRIS DE LIN

ALL OUR SINGLE EARLY TULIPS, of varieties suitable for forcing under glass, are picked bulbs, strictly first size. EXPLANATORY: The number preceding the name of the variety denotes the height in inches, while the letters a and b indicate their earliness of bloom—the a's flower together and are the earliest; the b's flower together, but are somewhat late.

# Darwin Tulips

The most profitable of all Tulips for Florists' use.

OF late years, growers are realizing that these are the biggest money makers of the whole Tulip race.

The stately beauties are borne on stems often 3 feet high, the colors running from almost black to the loveliest pinks, crimsons, lilac, mauve, and many other light or pastelle shades. Grown under glass, they force admirably with gentle heat, and seem to develop more delicate shades than out of doors. Those that force best are marked (f).

DARWIN TULIPS

# May Flowering or Cottage Tulips

THESE Tulips should be handled more by Florists than they are at the present time. They are very beautiful in their unique shapes and exquisite colors, and many are deliciously perfumed. They can be largely used in all Hardy Plant borders, and for cut flower trade a permanent planting will be found a much needed source of supply. Some can be gently forced like Darwins, and are marked (f) thus.

# Paper White Grandiflora

WE pay the highest price for true Grandiflora in the country of its growth, and the bulbs are as near those we agree to deliver as the crop and the season produces, from those reliable French importers who pack straight goods.

Final results of harvesting this crop in France (Aug. 10th) show the supply only 60% of a normal crop. Weather conditions have provided a crop which in size grades much below that of former years. Growers, however, claim that these bulbs of smaller grades are so well ripened that they will bloom well.

We repeat our caution of last year, be sure of your weights, measurements and full cases when you compare prices.

**Very Important:** We ask that in ordering Paper Whites and Romans from this catalogue you give us the privilege of filling with the next lower grade if we cannot furnish the exact grade you order.

Many jobbers were last year delivering the 13 cm. grade and billing 14 cm. value.

Will replace the Easter Lily extensively this year.

### Vaughan's Firebird

The best red-flowered green-leaved Canna.

The flowers are borne in immense trusses, on strong stalks well above the leaves. They are of splendid form, round and shapely. The petals measure and sometimes exceed 2½ inches across, and the color is a glistening scarlet without any streaks, spots or blotches.

**Each, 25c; Dozen, \$2.00; 100, \$12.00; 1000, \$100.00.**

### Yellow King Humbert—The Best Yellow

An Orchid flowering sport of the well known variety King Humbert. Has the same habit of growth as its parent: foliage a very dark green with flowers measuring 5 to 7 inches across: individual petals 3 to 3½ inches in diameter. Color of flower: a deep, rich yellow heavily spotted and blotched with bright red. Some plants will occasionally give a scarlet or scarlet-striped flower, which we consider an advantage rather than a defect.

**Each, 20c; Dozen, \$1.25; 100, \$8.00; 1000, \$75.00.**

### King Humbert

The Best Bronze-Leaved Canna of Today.

This remarkable Gold Medal Canna has been the prize-winner for many years. Its giant flowers, orange-scarlet in color, the very broad, rubber-like bronze leaves, altogether make up a plant so distinctively in advance of any other bronze-leaved Canna that the demand for it is universal.

**Each, 10c; Dozen, 60c; 100, \$5.00; 1000, \$40.00.**

## STANDARD KINDS

These Cannas, of our own growing, are **Strictly True to Name**, and should not be compared with the doubtful Southern grown stock, now so common. Dormant Roots, 2 eyes, ready for delivery October 15th to January 1st.

# Ornamental and Flowering Shrubs

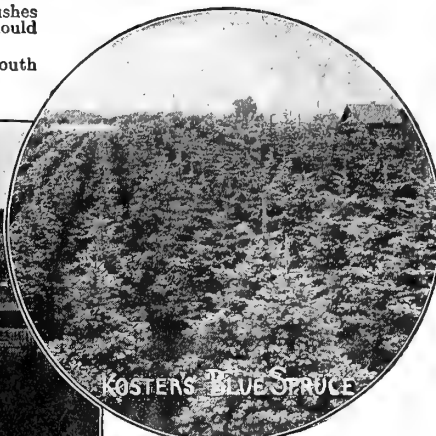

Our shrubs are Nursery-grown and are transplanted every two or three years. They are nice, shapely bushes with plenty of good fibrous roots, and are such plants as are in demand by the first-class retail trade. They should not be compared to stock that is never moved from the cutting or seedling beds until sold.

Our Nursery is located at Western Springs, 15 miles west of Chicago, on the C. B. & Q. R. R., two blocks south of 47th Street, on the continuation of East Boulevard.

Visitors are invited to inspect our stock at any time. We have a choice lot of specimens such as are not usually seen. Our customers will be pleased with the class of stock we send them.

## Coniferous Evergreens

OUR Evergreens are well grown, frequently transplanted bushes, with abundance of fibrous roots, and are balled and burlapped before shipping. Florists or Landscape gardeners placing orders with us can rely on getting well shaped trees such as we send to our private customers.

**Evergreens in Tubs.** Owing to scarcity of imported Box and Bay Trees, we have a quantity of shapely evergreens established in tubs suitable for porch and indoor use. Please write for particulars as to variety, size and price.

**Descriptions.** Kindly refer to our retail catalogue for descriptions and character of the following list.

# Fruit Trees

Since we grow these Fruit Trees mainly for our retail trade the quality is vastly superior to stock ordinarily offered by Nurserymen, hence prices should not be compared to ordinary fruit tree stock. Our trees are just what the better class of retail customers require.

Eureka. Eureka is akin to Obconica, but of an entirely new form. The compact flower heads have more the appearance of "Sinensis," large well-shaped flowers with broad overlapping petals, and are carried well above the foliage on stout stems, which obviate any necessity for artificial support—are of a rich rosy carmine, shaded cerise, greatly enhanced by a well-defined clear yellow eye as in Sinensis. The foliage is also quite distinct, being a bright glaucous green in color, remarkably undulated and frilled, and of wonderful texture. We claim that Primula Eureka is quite distinct and will prove a rival to Sinensis for general use, and it is practically perpetual flowering.....			1.00

# Vaughan's Giant Pansies

**VAUGHAN'S INTERNATIONAL PANSIES**

Vaughan's International Pansy Mixture was first offered by us in 1889. We import from all the best European sources. Each year has added to the quality of its flowers and variety of its colors. We buy every year novelties of known merit to improve the mixture; it is always complete, always the latest and always the best mixture. We add to all Pansy Mixtures which we now buy more than 50 per cent of the choicest named kinds obtainable, each in correct proportion. This is one of the **Specialties** that has established the reputation of Vaughan's Flower Seeds, and one which we maintain most carefully.

Trade pkt., 50c; 1/8 oz., \$1.50; 1/2 oz., \$5.00; oz., \$10.00.

## Vaughan's Giant Pansy Mixture

Embraces, besides all the separate shades and colors, five special strains not listed elsewhere, and which can only be had in this and our International Mixture. This mixture includes the richest reds, copper and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau and the splendid Cassier strain.

Trade pkt., 25c; 1/8 oz., 75c; oz.: 5.00; 1/4 lb., \$18.00.

## Vaughan's Cut Flower Mixture

This mixture is put up by ourselves and contains mostly light colored sorts. We have sold this mixture for several seasons to some of our Chicago cut-flower growers, who have realized big returns from the sale of flowers. Pansies are as easily grown as violets, requires less care and bring better results.

Trade pkt., 25c; 1/8 oz., 60c; oz., \$4.00.

## New Early-Flowering Giant Pansies

The new strain produces its giant flowers about four weeks earlier than other known types. In March, when the old type pansies hardly show any buds the plants of the new strain bore from three to five of their giant flowers.

**Early Flowering Giant White, Yellow, Light Blue, Dark Blue and Mixed.** Trade pkt., (500 seeds) 25c; 1/8 oz., 80c.

## Chicago Parks Bedding Mixture

This is a mixture made by ourselves from 20 different and distinct varieties of this type. While the flowers of this strain do not grow as large as those of the Giant Pansies they excel them by a much greater number of flowers to a plant.

Trade pkt., 15c; 1/4 oz., 35c; oz., \$1.15; 1/4 lb., \$4.00.

## Vaughan's P. P. (Popular Price) Mixture of Pansies

This mixture, like all "Vaughan" mixtures, is made up by ourselves from separate colors and strains of the Giant and Chicago Parks Bedding types and will furnish a large variety of colors with a good proportion of giant flowers.

Trade pkt., 20c; 1/8 oz., 35c; oz., \$2.00; 4 ozs., \$7.00.
